Describe your business service(s). *Biogas/gas processing consulting, engineering and turn-key system provider*

Doda USA is a manufacturing company based in St. James, MN. Doda USA primarily focuses on the agriculture and organics (industrial) lines of business. Doda products are widely used to handle slurry in operations such as hog and dairy farms, or larger pieces of equipment, for example, on tanker trucks for the handling of livestock waste. In addition, Doda is active in the waste management sector, selling Pumps, Bio Separators, Hoppers, Mixers, etc. to customers throughout the U.S. and Canada who are investing in industrial-scale waste management systems.

Describe your area or region of operation.

United States and Canada

Does your company hold any patents or the rights to any patents? Yes No *If yes, please describe.*

The unique design of the Doda centrifugal pump housing and patented chopper blades makes the Doda pump a true leader in the field of pumping highly fibrous sludge and slurry.

Do you manufacture equipment? Yes No *If yes, please describe.*

We manufacture a broad variety of manure handling equipment including chopper pumps, roller, screw and rotary separators, mixers, aerators, cleaning and accessories to solve waste handling issues in agricultural, municipal & industrial waste industries

Do you integrate equipment manufactured by others? Yes No

If you integrate, please list the names of the companies you represent.

Doda equipment is used in fully integrated agricultural and industrial organic waste steam management systems

How do you answer potential customer's questions about financial strength of your company?

Our company has a strong customer base in the United States and offer agricultural equipment and services worldwide

Do you offer technical/service support? Yes No *If so, what methods?*

We assemble, service & install manure pumps, mixers, separators and organic waste handling equipment

Do you offer design services? Yes No *If yes, please describe.*

Doda's engineering know-how, and proven successful experience gained over half a century and hundreds of turnkey projects, enables Doda to offer custom solutions in the organic waste industry with strict adherence to cost/benefit advantages.

Do you offer financing? Yes No *If so, what terms?*

Doda can help arrange financing and equipment leasing.

Are you a full stop shop? *Design to construction to operate?* Yes No *If so, please describe.*

DODA offers complete design, installation, and equipment service and parts

Do you have preferred partners? Yes No *If so, please list and provide contact information/identify partners by name.*

We have a network of reputable companies to choose from when it comes to installing and servicing equipment

Do you have any third-party verification/research that has been done on this technology? Yes No

If so, please describe.

The company uses state-of-the-art manufacturing equipment in compliance with the strictest antipollution rules alongside the most advanced computer generated two- and three-dimensional CAD drawings to design, manufacture and provide solutions over a broad spectrum of waste management applications.

Do you provide a performance guarantee? Yes No *If so, what are you guaranteeing?*

For example: up time, methane production, biogas production, parasitic load, throughput, O&M cost, percent recovery, other. Please describe.

Doda USA warrants to its customers that all products manufactured by Company will be free from defects in material and workmanship for twelve (12) months from the date of shipment

Are there any other aspects of your business that you feel should be included in this document?

Doda's engineering know-how, and proven successful experience gained over half a century and hundreds of turnkey projects, enables Doda to offer custom solutions in the organic waste industry with strict adherence to cost/benefit advantages.
