BUSINESS HISTORY

**How long have you been in business?** Since 2008

**Are you part of a larger company?** Yes  No

**Did you exist as another company before this company was formed?** Yes  No  *If so, what was that company's name?*

**Number of employees?** 22

**What is your business structure?** LLC/Corp.

**What types of insurance and or surety do you provide?**

Performance Guarantee

**Describe your business service(s).** *For example: consulting, development, engineering, equipment sales, finance, other.*

Biogas conditioning: H2S removal from biogas

**Describe your area or region of operation.**

By the end of 2017 Biogasclean has more than 200 plants in operation or under construction in 40 countries and supplies clean gas to more than 500 MW gas engines. The technology from Biogasclean is also implemented in several gas-upgrading systems for RNG together with Amine up-grading technology.

**Does your company hold any patents or the rights to any patents?** Yes  No  *If yes, please describe.*

We have a patent-pending technology for cleaning gas with very high H2S content (competitive for more than 20.000 ppm H2S)

**Do you manufacture equipment?** Yes  No  *If yes, please describe.*

We manufacture the PTU (The “machine room” for the process)

**Do you integrate equipment manufactured by others?** Yes  No

*If you integrate, please list the names of the companies you represent.*

We are using standard equipment (pumps, blowers, sensors etc) We work with different tank providers. If the end-use is RNG we work together with amine provider

**How do you answer potential customer's questions about financial strength of your company?**

We have a proven track record with more than 200 projects and customers who repeat several orders. Providing Performance Guarantee for every single project.

**Do you offer technical/service support?** Yes  No  *If so, what methods?*

Technical back-up by phone, mail, visit from service engineer.

**Do you offer design services?** Yes  No  *If yes, please describe.*

Yes – every project is design according to the individual design parameters for the gas condition and for the environment (ambient temperature, seismic load and wind load)

**Do you offer financing?** Yes  No  *If so, what terms?*

No

**Are you a full stop shop?** *Design to construction to operate?* Yes  No  *If so, please describe.*

Yes, we can design, build, install and erect the plant. For every plant we participate in the commissioning.

**Do you have preferred partners?** Yes  No  *If so, please list and provide contact information/identify partners by name.*

We partner with companies with who we can offer the most integrated an competitive solution for the customers. This can be a service partner related to the gas engine or a provider of Amine up-grading technology for RNG projects.

**Do you have any third-party verification/research that has been done on this technology?** Yes  No

*If so, please describe.*

The best third-party verification is our Reference List with customers with many repeat orders.

**Do you provide a performance guarantee?** Yes  No  *If so, what are you guaranteeing?*

*For example: up time, methane production, biogas production, parasitic load, throughput, O&M cost, percent recovery, other. Please describe.*

The Performance Guarantee is specified in each quotation related to the specified design parameters.

**Are there any other aspects of your business that you feel should be included in this document?**

The strong focus for the Biogasclean systems is: Low operating costs – high availability – no us of chemicals - Performance Guarantee.
