BUSINESS HISTORY

How long have you been in business? More than 20 years

Are you part of a larger company? Yes No

Did you exist as another company before this company was formed? Yes No *If so, what was that company's name?*

Number of employees? 10

What is your business structure? Limited Liability Corporation (LLC)

What types of insurance and or surety do you provide?

We offer liability insurance and all or a portion of the project equity required.

Describe your business service(s). For example: consulting, development, engineering, equipment sales, finance, other.

Camco is an experienced project developer working with a network of pre-qualified technology partners to develop, construct, deliver and operate clean energy projects for dairies and other sectors. Camco specializes in **Digester Project Development and Asset Management**, including pre-project studies, feasibility, development, finance, and asset management/optimization. Camco also specialize in monetizing complementary environmental attributes including carbon offset credits, renewable energy certificates (RECs), renewable identification numbers (RINs) and Low Carbon Fuel Standard (LCFS) credits.

Describe your area or region of operation.

Camco help clients in North America to implement clean energy and emission reduction solutions, reducing costs and maximize financial and environmental benefits.

Does your company hold any patents or the rights to any patents? Yes No *If yes, please describe.*

Do you manufacture equipment? Yes No *If yes, please describe.*

Do you integrate equipment manufactured by others? Yes No

If you integrate, please list the names of the companies you represent.

Camco established a pre-qualified network of qualified anaerobic digester systems providers integrated with back-end digestate process equipment and technologies to provide clean energy solutions for a variety of feedstocks, including livestock manure, food waste and MSW.

How do you answer potential customer's questions about financial strength of your company?

Camco is a well-established company with a 25-year track record. We are owner-partners in several financially successful dairy digester projects that demonstrate our company's financial strength and successful project delivery experience. Further, we are a US subsidiary to a publicly listed company on the London Stock Exchange (LON: RED)

Do you offer technical/service support? Yes No *If so, what methods?*

Technical support is provided through Camco project managers and project specific technology partners

Do you offer design services? Yes No *If yes, please describe.*

Project design services are provided through Camco in association with technology partners for each project

Do you offer financing? Yes No *If so, what terms?*

Camco has the ability to directly invest its own resources and capital to develop projects and commercial arrangements that are practical and financeable. Camco also has a large network of investors or high net worth individuals that can partner or invest in Camco projects. Camco or its partners may provide all or a portion of the project equity required.

Are you a full stop shop? Design to construction to operate? Yes No *If so, please describe.*

Camco is a full-service project developer that is actively working with the dairy community and other sectors to develop anaerobic digestion projects across the country. Camco manages a portfolio of over 25 digesters producing electricity and is working on a renewable natural gas model for several other dairies.

Do you have preferred partners? Yes No *If so, please list and provide contact information/identify partners by name.*

Camco has a network of highly qualified technology providers. Preferred partner Information is available depending on the project type (e.g., dairy manure, food waste, MSW, etc.)

Do you have any third-party verification/research that has been done on this technology? Yes No

If so, please describe.

Third-party verification results are available.

Do you provide a performance guarantee? Yes No *If so, what are you guaranteeing?*

For example: up time, methane production, biogas production, parasitic load, throughput, O&M cost, percent recovery, other. Please describe.

Camco is a developer and asset manager that requires technology partners to offer performance contracts for its projects.

Are there any other aspects of your business that you feel should be included in this document?

Camco is an industry leader in the marketing of environmental assets and has been working with the dairy community across the country for many years to monetize the environmental benefits of projects. Camco is a leading supplier of offset credits to the U.S. market having sold over 2 million offsets in the U.S. market. Its portfolio of digesters represents the majority of carbon offsets issued through the California ARB process.
