

# TECHNOLOGY PROVIDER TECHNOLOGY INFORMATION REQUEST

**Technology/Service:** GEA Houle - Slope Screen

**Information by:** Jeramy Sanford

**Date:** August 24, 2018

## COMPANY INFORMATION

**Company:** GEA Houle Inc.

**Phone:** 819-477-7444

**Web Site:** <http://www.gea.com/>

**Address:** 4591 Boulevard St-Joseph

**City:** Drummondville

**State:** QC, Canada

**Zip Code:** J2B 6W3

## TECHNICAL CONTACT

**Name:** Jeramy Sanford

**Phone:** 630-453-8867

**Email:** [jeramy.sanford@gea.com](mailto:jeramy.sanford@gea.com)

**Address:** 1880 Country Farm Dr.

**City:** Naperville

**State:** IL

**Zip Code:** 60563

## DEMONSTRATION SITE CONTACT

**Site Name:** Provided upon request

**Contact:**

**Title:**

**Phone:**

**Email:**

**Address:**

**City:**

**State:**

**Zip Code:**

## INITIAL TECHNOLOGY OVERVIEW

**This information is to guide in the development of a more specific and detailed Technology Information Request. Please answer the following questions for each Technology or Service Provided.**

**What is the name of the technology or service you provide?**

2-Stage Slope Screen Separator

**Describe how this technology is used in a larger Nutrient Management System. Please be as detailed as possible.**

The two stage slope screen provides primary separation for all types of dairies.

**How many systems do you have installed on dairy farms or other livestock operations?**

SYSTEMS	NUMBER OF SITES	SIZE OF INSTALLATIONS
Dairy	>250	250+ cows
Pork	Limited	
Municipal		

**What's the smallest and largest farm using your system?**

We have systems installed on dairies ranging from 120 cows to over 35,000

**Does this technology have a 12-month record of reliable performance on at least three dairy farms?**

Yes

**Do you have a preferred region or area for the location of projects?**

Worldwide

**Input and output of your unit/system – do you have a mass balance analysis?**

*If a mass balance is available, please include below or attach as a separate document.*

See company representative. Input and output vary by equipment type.

**Input material description and characteristics:**

*For example: raw manure, digestate, screened digestate, suitable non-farm feedstocks, other.*

Raw manure

Digestate

Screened Digestate

Suitable non-farm feedstocks

Other

**Does the technology treat the full manure stream for a farm or a fraction of the stream?**

This equipment treats a fraction of the stream as it is part of the bigger system.

**Do you consider this a mature system or ongoing farm development?**

Mature with ongoing improvements

**Any weather constraints?** Yes ☒ No ☐ *If so, please describe.*

Locate the system in a non-freezing building

**Any bedding constraints?** Yes ☒ No ☐ *If so, please describe.*

Will not separate sand

**Output material description and characteristics:**

*Please include the % of the total stream for each material, i.e. 10% fiber and 90% screened liquid by weight.*

The two stage slope screen can provide stackable fiber with a dry matter count up to 24%. Screened liquid up to 4% solids

**Do the Outputs of the process have a resale market identified?** Yes ☒ No ☐

*If so, under what brand name or who is the contract with?*

Fiber bedding

**Is this process scalable and to what extent (top and bottom limits)?** Yes ☒ No ☐ *If so, please describe.*

The process is scalable for any size dairy farm

**Do you have a known scaling factor?** Yes ☒ No ☐ *If so, please describe.*

Preset process limits on the equipment

**Does this technology require any air input?** Yes ☐ No ☒

**What is the preferred air connection?** For example: psi, fitting size, air quality.  
If not distributed by the system, please list each connected device.

**Does this technology require any water input?** Yes ☒ No ☐ If so, please describe.

Well pressure only, no minimum GPM requirements.

**What is the preferred water connection?** For example: psi, fitting size, water quality, gpm.  
If not distributed by the system, please list each connected device.

Varied

**Does this technology require any electrical input?** Yes ☒ No ☐ If so, please describe.

We build panels to fit all supply types.

**What is the preferred electrical connection?** For example: phase #, voltage, full load amps.  
If not distributed by the system, please list each connected device.

None preferred

**Does this technology require any mechanical input?** Yes ☐ No ☒ If so, please describe.

**What is the preferred mechanical connection?** For example: horsepower, connection, rpms.  
If not distributed by the system, please list each connected device.

**Does this system require any special plumbing?** Yes ☒ No ☐ If so, please describe what is required.

Drain and feed fittings

**Does this system require any special foundations or pads?** Yes ☒ No ☐ If so, please describe.

Each system has it's own requirements. Contact a company representative.

**Do you consider this technology part of a larger system that you provide?** Yes ☒ No ☐ If so, please describe.

The two stage slope screen provides primary separation for all types of dairies.

**Does your system require any other components that you do not provide or are not included in your proposal?** Yes ☐ No ☒  
If so, please describe.

**How is the system delivered to the site?** For example: skid mounted, assembled on site, constructed on site.

Assembled on site

**Is this system portable or configured in such a way that it could be easily transported for use in several locations?**

Yes ☐ No ☒ If so, please describe.

**Has your technology been accepted by the NRCS and is it included into a practice standard?** Yes ☒ No ☐  
If so, please describe if necessary.

**Are there any unusable or hazardous byproducts of this process?** Yes ☐ No ☒  
If so, please describe the product and recommended means of disposal.

**What spare parts and redundant components are included with the system?**

None

**How is the system controlled and what are the components and capabilities of the control system?**

GEA supplied control panel

**What is the usable life of the system?**

10 years+

**What is the salvage value at the end of the usable life?**

See company representative

**What is the educational and technical level of competence for the operation of the system?**

Basic mechanical skills and process understanding.

**What level of maintenance is required for the system?**

*Please indicate if rebuilds or major components must be replaced and what the frequency is for these components.*

Less than 1 hour per day

**Are consumables used in the process?** Yes ☐ No ☒

*Please provide the nature and purchase relationship for these consumables. For example: proprietary, special contract, generally available.*

**Which of these NRCS codes would your technology be classified under?** Check all that apply. Add if necessary.

CODE	NRCS DESCRIPTION	CHECK ALL THAT APPLY
472	Access Control	<input type="checkbox"/>
560	Access Road	<input type="checkbox"/>
309	Agrichemical Handling	<input type="checkbox"/>
371	Air Filtration and Scrubbing	<input type="checkbox"/>
591	Amendments for the Treatment of Agricultural Waste	<input type="checkbox"/>
366	Anaerobic Digester	<input type="checkbox"/>
672	Building Envelope Improvement	<input type="checkbox"/>
372	Combustion System Improvement	<input type="checkbox"/>
317	Composting Facility	<input type="checkbox"/>
554	Drainage Water Management	<input type="checkbox"/>
375	Dust Control from Animal Activity on Open Lot Surfaces	<input type="checkbox"/>
373	Dust Control on Unpaved Roads and Surfaces	<input type="checkbox"/>
374	Farmstead Energy Improvement	<input type="checkbox"/>
512	Forage and Biomass Planting	<input type="checkbox"/>
561	Heavy Use Area Protection	<input type="checkbox"/>

516	Livestock Pipeline	<input type="checkbox"/>
590	Nutrient Management	<input checked="" type="checkbox"/>
521A	Pond Sealing or Lining, Flexible Membrane	<input type="checkbox"/>
533	Pumping Plant	<input type="checkbox"/>
588	Roof Runoff Structure	<input type="checkbox"/>
367	Roofs and Covers	<input type="checkbox"/>
318	Short-Term Storage of Animal Waste and By-Products	<input type="checkbox"/>
570	Stormwater Runoff Control	<input type="checkbox"/>
606	Subsurface Drain	<input type="checkbox"/>
635	Vegetated Treatment Area	<input type="checkbox"/>
601	Vegetative Barrier	<input type="checkbox"/>
360	Waste Facility Closure	<input type="checkbox"/>
632	Waste Separation Facility	<input type="checkbox"/>
313	Waste Storage Facility	<input type="checkbox"/>
634	Waste Transfer	<input type="checkbox"/>
629	Waste Treatment	<input checked="" type="checkbox"/>
359	Waste Treatment Lagoon	<input type="checkbox"/>

		<input type="checkbox"/>
		<input type="checkbox"/>

#### Can you provide an estimate of the capital required for the installation of this technology?

Please include all components and designate if provided by you or others.

Slope screens range in price from \$30,000 to \$80,000 Canadian Dollars per machine. This depends on the farms size and dry matter/water quality requirements. Typically a Midwest/east farm will use one screen per 1200 cows, a western farm may get by with one per 2000 cows or more.

#### Can you provide an estimate of the operational costs required for this technology?

Please include all costs and designate if provided by you or others.

The two stage screen(with an integrated roll) will run a 1.5HP motor and operational costs are typically considered on a 24/7 run time. Maintenance costs will be .5 hours per day to clean, no added water for operation, minimal maintenance required, less than \$3,000 annually.

Is there financing available for this system? Yes ☒ No ☐ If so, what are the conditions for this financing?

Through the dealer network

Is the system available for lease? Yes ☒ No ☐ If so, please describe.

#### What sort of warrantee or guarantee do you provide with this technology?

Do you provide any performance guarantees or strictly defects in parts and materials?

On year manufacturer warranty

**Explain how this system is unique or transformative and how does it improve upon or go beyond other technologies that are currently available.**

The two stage slope screen has many GEA specific design specifications.

**Would you be willing to provide a location for a site visit by Newtrient?**    Yes ☒    No ☐    *If so, please provide location.*

Optional, contact company representative

**TECHNOLOGY REFERENCES**

---

**Please provide customers with whom we can discuss this technology and its performance.**

*Include a company name, location, contact name and contact information.*

Information:**

**Are there any other facts about this technology that you feel should be included in this document?**

quasar is able to support the entire dairy industry by digesting other organic material and not just utilizing manure management technology.
