BUSINESS HISTORY						
How long have you been in business? Since 1960						
Are you part of a larger company? Yes No						
Did you exist as another company before this company was formed? Yes No If so, what was that company's name?						
Number of employees? No response given		onse given				
What is your business structure?			Corporation			
What types of insurance and or surety do you provide?						
No respons	se given					

References. Please provide customers or colleagues with whom we can discuss your business and performance. Please include a separate list with company name, location, contact name and contact information.				
No response given				
Describe your business service(s). For example: consulting, development, engineering, equipment sales, finance, other.				
No response given				
Area or region of operation.				
Worldwide				
Does your company hold any patents or the rights to any patents? Please identify.				
Numerous				
Do you manufacture equipment?				
No response given				
Do you integrate equipment manufactured by others? Yes No If you integrate, please list the names of the companies you represent.				
No response given				

How do you answer potential customer's question about financial strength of your company?
Company and project size, proven longevity
Do you offer technical/service support? No If so, what methods?
Do you offer design services? No Please describe.
Do you offer financing? Yes No <i>If so, what terms?</i>
No response given
Are you a full stop shop? Design to construction to operate? Yes No Please describe.
No response given
Do you have preferred partners?

Do you have any third-party verification/research that has been done on this technology?
No response given
Do you provide a performance guarantee? Yes No If so, what are you guaranteeing? For example: up time, methane production, biogas production, parasitic load, throughput, O&M cost, percent recovery, other.
No response given
Are there any other aspects of your business that you feel should be included in this document?
No response given

INITIAL TECHNOLOGY OVERVIEW

This information is to guide in the development of a more specific and detailed Technology Information Request. *Please answer the following questions for each Technology or Service Provided.*

What is the name of the technology or service?
Thermo-System Parker BioLac
What unit process is the technology used in? For example: initial collection/transfer manure storage, energy recovery, primary/coarse solids recovery, advanced suspended/fine olids recovery, drying, struvite production, nitrification denitrification, ammonia stripping, algae, vermi composting, membrane iltration, evaporation, other.
Sludge drying BioLac - Activated sludge process — aeration
low many systems have you installed on dairy farms or other livestock operations?
No response given
size of farm(s)?
No response given
ocation of farm(s)?
No response given
What's the smallest/largest farm for your system?
No response given

Input material description/characteristics: For example: raw manure, digestate, screened digestate, suitable non-farm feedstocks, other.
Separated solids, moisture content?
Does the technology treat the full manure stream for a farm or a fraction of the stream?
Just separated solids
Do you consider this a mature system or ongoing farm development?
Mature
Any weather constraints? Yes No Please describe.
Any bedding constraints? Yes No Please describe.
Is this process scalable and to what extent (top and bottom limits)? Yes No Please describe.
No response given
Do you have a known scaling factor? Yes No Please describe.
No response given

Input and output of your unit/system – do you have a mass balance analysis? Yes No Please describe.
No response given
Do you consider this technology part of a larger system that you provide? Yes No Please describe.
Yes, separation technology ahead of Thermo-System required, varies with site needs
Has your technology been accepted by the NRCS? Yes No Please describe.
Would you be willing to provide information for a technical review? Yes No
Would you be willing to respond to a Request for Quotation (RFQ) on a generic project for comparison of your technology against other technologies in the same unit process? Yes No
Are there any other facts about this technology that you feel should be included in this document?
No response given
